A'ight fellas let's do it

[Will]

Yo ma we got this thing right {thing right}

It's like makin' me think like {think like}

It's like fillin' my heart up

Not makin' me hazy

Just fillin' my mind up with all of these maybes

I'm tryin' to figure exactly the thing

It's like got me rackin' my brain {oh oh}

It's like tryin' to put words to a smile {smile}

It's like tryin' to figure out... forget it look

It's really kinda hard to explain how your smile been
burnt in my brain

And how your perfume sing a sexy song to my nose

And how your finger tips gentle like the petals of roses

Maybe it's the way you comb your hair {comb your
hair}

Or maybe it's them stylish clothes you wear {style you
wear}

Or maybe it's them little things you do

Or maybe it's just you {maybe just you}

I don't know

Maybe it's your attitude

Maybe it's your point of view

Maybe it's the time we spend together

Maybe we could do this thing forever

Maybe it's your soldier ways

Maybe it's your golden gaze

Maybe it's the way we blend together

Maybe we should do this thing forever

[Will]

Remember we met with shakin' deja that first night

That was the worst night right?

What

I mean we had fun and all

Yeah that's true but

You had somebody else and I did to {whooooo}

So it felt like karma and fate had formed a team

To keep me from the girl of my dreams

But in the end I made friends with hope and destiny
And then well the rest is history {the rest was history}
But yo it wasn't easy though trust in me
Tryin' to turn you and me into us
You my homie my lover my best friend
The white house to the ghetto you blend right in and I
dig dat
I could never imagine this passion I feel
I mean couldn't imagine how we could last what I feel
But if someone do somethin' to you
Shoot girl I might just...

Maybe it's your attitude
Maybe it's your point of view
Maybe it's the time we spend together
Maybe we could do this thing forever
Maybe it's your soldier ways
Maybe it's your golden gaze
Maybe it's the way we blend together
Maybe we should do this thing forever

[Tra-Knox]
I must tell you how I love you
Maybe your my soul mate
Maybe mah best friend
You make me and mold me a better man
Yes I can believe in loooooove
Oh yeahie yeahie eyeeeah oh yeeaahie
Maybe maybe maybe

Maybe it's your attitude
Maybe it's your point of view
Maybe it's the time we spend together
Maybe we could do this thing forever
Maybe it's your soldier ways
Maybe it's your golden gaze
Maybe it's the way we blend together
Maybe we should do this thing forever
