Hello?
Yeah, this is Prince, whose this?
Yo, what's up baby, how you doin?
Oh, I'm tryin to see you on a personal tip
You know that, right?
Ah come on
You been tellin me that for years
You're a little bit older than me, you know?
You're 30 years old and I'm 20
Age ain't nothin but a number, baby
Hey look, I'm young but I'm real strong
Heh
Hey look, I know that, I know, I know
I can't sport you around in my Benzito
And take you out to dinner and be seen
You know
That's cool, though
I tell you what
I tell you what
Got sumthin that can remedy for this problem
This is what I want you to do
I want you to get a globe, right?
I want you to spin the globe, spin it hard baby
Pick anywhere in the world
And I'll take you there
We'll be together, alright?
You with that?

Greek mythological gods are inferior
Studs and playboys, come on, I'm superior
Any man can look and see where the curves are
It takes a real man to find where the nerves are
Women like huggin, kissin and caressing
And a slow undressing
Calm down, chill out, take your time, dude
Don't be all rough and fast like a monsoon
Women are soft and fragile, you know delicate
It's really not appealing to them when the fella gets
All worked up and rushes to the pinnacle
You might think so, but yo, they ain't with it though
Candlelight dinner, just you and her in a
Nice restaurant is always a winner

Then ah - if she is first rate and on the first date
She says no, be patient, don't push her, just wait
Because a woman is a gift to a man
They like you real hard but with a gentle hand
So get your act together cause if you're trippin up
If you're slippin up, then F.P. is pickin up
All of y'all slack man, cause what you're lackin
I fill up, so ain't no need to come back, man
Everything ain't always the way that it seems
I'm the Fresh Prince, baby doll, and I'm the man of your
dreams

Yo, what's up
Yeah, this is Jeff
Yeah I heard you talked to Prince today huh
Yeah let me guess
He's young but strong
Yeah
I kind a figured that
Let me ask you a question
Did he kick the globe line on you?
Yeah I thought so
I heard that before too
Look, I'm not into geography
So I'm not gonna ask you to spin no globe and point to
where you wanna go
Or spend no dollars or even do back-semis when I
come in the room
Because I'm not into that

You know, all I'm asking for is 60 minutes of your time
And I can set the whole record straight
You know what I'm saying

I'm not trying to say nothing that's hard or complex
Or get you psyched with a pose or body flex
I win your loving with a paid vacation
You know I'm more into a intellectual stimulation
I make your mind feel good your body follows it
I pour loving in, your mind swallows it
I'm not dissing Prince, cause he's my friend
But boys'll be boys and men'll be men
Ladies, your battery's unstable
Jazzy Jeff got the world's best jumping cables
Fourteen thousand volts of pure intimacy
That's enticing to you
Yeah, it was meant to be
Don't debate the great flow of fate
Let he who's Jazzy have you concentrate
Think of me and you makin love as a team
I'm Jazzy Jeff baby doll, and I'm the man of your

dreams

Yo Jeff, what up, hop
What's up, man
Hey, I heard that you was trying to talk to my girl
Man, what's up with that?
What, your girl
Yeah, my girl, I heard you heard you was trying to talk
to my girl
What's up
Nah, it ain't even like that, you know
If you was kickin stronger game
She wouldn't have to call me
Stronger game
Yo, you was tryin push up on my girl
I wanna know what's up with that
Once again your girl
Yeah
I think you better get the record straight, man
Ah
You said my girl was pushing up on you
Ain't too much to be pushing up on!
I mean that's true, you know
But you know you kickin that 'spin the globe' and all of
that crazy stuff
She ain't with that
Aight, aight, aight
We ain't even gotta go into this
Hey, I'm confident in myself
I'm sure you're confident in yourself
We'll let her decide
Yeah, you know
We can let her decide over a nice candlelight dinner at
my spot
Cause that's where she gonna be tonight
Oh ha -dinner
You better hope she can make it to dinner after she
had lunch with me
Oh yeah?
Yeah, word up
You lead it off I end it off
Yeah alright, homie
You better check yourself before you wreck yourself
Ooh, I'm scared, I'm scared
