Kapow! You blew my engine out
I'm falling to the ground alone and on fire
It's okay, I know you only meant well
Well, you always only mean well
I've gotta try to land this

You've come to watch me go down in a blaze of smoke
Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die

When talkin' gets fuzzy on the blackbox
And my parachute straps fall off
I'm starting to think you planned this
And now I can see the lines in the street
And I'm going down in history
As some guy who never stood a chance

You've come to watch me go down in a blaze of smoke
Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die alone
Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die alone

Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die alone
Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die alone
Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die alone
Tailspin, you're gonna lose all your friends
Tailspin, I don't want to die alone
