(Talking)

Ummm, yeah. So this is like, this is like the afterlife of the relationship.

It's like, explaining, I don't know, I don't even know...

Umm, hello ex lover,

I coulda sworn we woulda took it to the next level

The little arguments between us,

I wish that I could save us but my cape was in the cleaners,

Our relationship was hell, had to bail out,

Opened up your closet & the skeletons, fell out

(ILove You) nahh, I take it back,

You took revenge & cheated, c'mon there's mistake in that;

And I'm a winner showed you off like a trophy,

Was all up in that ass like a bike, with no seat

I admit (yeah) kind of mad at you

I'd shake yo' ass up something like a Tropicana juice,

& I'm never gunna Call back

I guarantee that I'm NEVER gunna Crawl back

Good luck for what your future holds

Can't go back too distracted by these groupie hoes;

CHORUS

(And I'm so so cold, so cold)

I gotta let you go so there you go

(And I'm so so cold, so cold)

Reminisce'n on the past of what we had

And I'm so so cold, so cold)

Let me go so I can grow,

I tell you this though, I don't need you (I don't need you)

Shit, (Shit) I'll just Control Alt Delete You.

SECOND VERSE

If I wanted to I can't trust her

I'll tell you now insecurity is a mothafucka,

Cuz now I see you in the videos,

I'm disgusted, but who the fuck am I to even discuss the subject,

I'm just another lame,
For you, it's just another phase
And these girls I don't believe whatever they say
I'm never gunna fall, never gunna mayday,
I got the crowd bouncing like they're jumping on a pogo
Will you a star, cowboy logo,
They say his music frost bite, man, he so cold,
Like Mutumbo get the finger like, no no, (no no)
Without her I'm a no go (no go)
So I'm fucked like porno
These are the words of my letter
I'm feeling way better, babe, it's been, a pleasure

CHORUS

(And I'm so so cold, so cold)
I gotta let you go so there you go
(And I'm so so cold, so cold)
Reminisce'n on the past of what we had
And I'm so so cold, so cold)
Let me go so I can grow,
I tell you this though, I don't need you (I don't need
you)
Shit, (Shit) I'll just Control Alt Delete You.
