(Peden/Johnson/Johnson)

Cut to the chase, your pretty face
Search outer space, leaving no trace
Making love in the heavens above
Flying so high, you and I
You and I, You and I

Chorus

Can't get my head around you
Can't bare to be without you
Can't stop from thinking 'bout you
You turn my life around
Can't get my head around you
Can't bare to be without you
Can't stop from thinking 'bout you
You turn my life around

Time standing still, inch time to kill
Cheating the wheel, there are moments to steal
So another day gets brushed away
Pre-occupied, you and I
You and I, you and I.

Repeat Chorus

Yeah, yeah. Oh-oh yeah

Making love in the heavens above
Flying so high, you and I

Repeat Chorus to fade
