Free my mind, taught to run
I didn't get to your mind
You'll see another part of me

Go ahead, I'll work around
You didn't, didn't get what you need
It's over now

Stop trying to apologize, no one else to blame
I've been down, right down on my knees too many
times

Everything has to end
A distant memory
Everything has to change
But you take a part of me

I see anew, mistakes I've made
I'll hold on to life and start again

Everything has to end
A distant memory
Everything has to change
But you take a part of me
