Look at what you do to me
I don't know who I'm becoming
Baby, it's so likely no good
You don't take care of me like you should

Look at what you do to me
I don't know who I'm becoming
Someones gotta help me out
I'm losing my mind without a doubt.

If you could she'd a little light on
No matter how far away
Baby, baby she'd a little light on
No matter how far away...

Hopes and fears
Bring us all to tears
Baby, this will tear us apart
I don't even know what you want

There ain't no way of knowing
If we are coming or going
You just do what you want
Just as long as I don't rock the boat

There ain't no way of knowing
If we are coming or going,
Tellin' me what I want to hear
Why do hide your hopes and fears

If you could she'd a little light on
No matter how far away
Baby, baby she'd a little light on
No matter how far away...

Hopes and fears
Bring us all to tears
Baby, this will tear us apart
I don't even know what you want

My hopes and fears
Bring us all to tears

They'll bring us to our knees,
So, baby won't you please,

Let go! let go!
Let go! let go!
Let go! let go!
Let go! let go!

You know you got your (my)
Hopes and fears (bringing me down)
Bring us all to tears (bring you to your tears)
Baby, this will tear us apart
I don't even know what you want (what you want)

My hopes and fears
Bring us all to tears
They'll bring us to our knees,
So, baby could you please, please let go! (and go!)

Let go!
Let go!
Let go!
Let go!
Let go!
Let go!
Let go!

Tearing us apart with your lies

Let go!
