If you kissed the sun right out of the sky for me  
And if you told me all the lies that I deserve  
And if you laid all night in the rain for me  
Well, I couldn't love you more  
I just couldn't love you more  
I couldn't love you more  
'If you kissed the sun right out of the sky for me  
And if you told me all the lies that I deserve  
And if you laid all night in the rain for me  
Well, I couldn't love you more  
I just couldn't love you more  
I couldn't love you more  
'If you kissed the sun right out of the sky for me  
And if you told me all the lies that I deserve  
And if you laid all night in the rain for me  
Well, I couldn't love you more  
I just couldn't love you more  
I couldn't love you more
