

Will Young "If That's What You Want"

Visit "[If That's What You Want](#)" on MotoLyrics.com

I don't like to think I'm predictable
When I'm loved by somebody I feel like a man
You know it's kind of hard to stop a waterfall
When it just keeps coming 'cause it can
And you've got to let go when your heart is on fire
And it's hard to say no
You can do anything now to me

Chorus 1

If that's what you want, baby I'll get it
If that's what you do, let's do it
If that's what you need, baby just take it
Now you're in a position to light my ignition
If that is what you want
I've been blown away by a hurricane
But hey I'm still standing and I come back for more
Hit me with your love, I can take the pain
'Cause you're so demanding, lay me down on the floor
And you've got to let go when your heart is on fire
And it's hard to say no, yeah
But you can do anything now to me

Chorus 2

If that's what you want, baby I'll get it
If that's what you do, let's do it
If that's what you need, baby oh baby just take it
Now you're in a position to soothe my condition
If that is what you want
Never stopped learning from the day that I was born
Now let me tell you you taught me where I was going
wrong
No, I can't do without it
I'm gonna do something about it

Repeat chorus 1
