You make me feel good
I feel so fine
I'm gonna make you mine, all mine
You're head to toe fly
You move so smooth
I'm gonna put my lovin' on you

And if you wanna we can dance real slow
Whatever you want sugar let me know
Or we can speed it up we'll put the loving on zoom
It's whatever you want

Chorus:

There's something about you boy
That's got me
There's something about you boy
That's rocking me
There's something about you
That's got me, got me, got me, got me singing
melodies, oh
I've been looking for a boy like you, a boy like you
A boy like you, a boy like you (she want a boy like me)
A honey like you, a sugar like you, a boy like you
She want a boy like (me)

You got me goin' wild (goin' wild)
You got me hypnotized by your smile
Ooh I like your swagger, oh I like your style
Why don't you take me to the club and work it out
Cos I wanna dance with you on the floor
We can keep our groove and move, it's so wonderful

Or, we can leave and go somewhere just me and you
It's whatever you want

Chorus

You want a girl like what (I want a girl like you) x 2
You want a girl like what (I want you girl, girl)
You want a boy like what (I want a boy like you) x 3
You want a boy like what (I want you boy, boy, boy)

Check it out shorty, if you really want to have a man like
me
You gotta know how to please a real man like me
Cos a lot of dudes coming they're men like me
But you can't really please a woman like me
Cos when I got to work, got to work, got to work, girl
I can really bring the pleasure, when I make you squirt
I'm a heartbreaker when I flirt, when I flirt
I'm a breath taker a lover expert, oh

We can get freaky, oh yeah, oh yeah
Do it on the beach baby, do it right there
Tell me where you want it
Tell me how you want it

Watch out, cos I'm about to go down, go downtown
And after downtown I'm goin' uptown
And after uptown we'll go another round
Cos it's all about you baby, baby you right now

Chorus
