Love will be the armor
Protect us from the pain
In our life, in our life.
Even when the storm comes,
We'll stand out in the rain,
Watch it slide, live inside.

Here we stand against the world

You and I we rock the lullaby
Make me feel alive, cause the love will never day
Me put you long one,
Shot me down and we're gone,
Ain't no need to worry, don't call 911.
Bang-bang, a lot of bang-bang,
Shoot me with your love and got me feeling no pain.
Kill it, kill it baby with your love even, bang bang,
Baby, do it again.

So shoot me with your bullet, bullet, bullet,
Such a pretty bullet, bullet, bullet,
Go ahead and pull it, pull it, pull it,
Shoot me with your bullet, bullet, bullet.
So shoot me with your bullet, bullet, bullet,
Such a pretty bullet, bullet, bullet,
Go ahead and pull it, pull it, pull it,
Shoot me with your bullet, bullet, bullet.

Even if you're mad at me
And fighting all the time
It's alright, it's alright.
I would risk my sanity
I would lose my mind
For one night, for one night.

Here we stand against the world

You and I we rock the lullaby
Make me feel alive, cause the love will never day
Me put you long one,
Shot me down and we're gone,

Ain't no need to worry, don't call 911.
Bang-bang, a lot of bang-bang,
Shoot me with your love and got me feeling no pain.
Kill it, kill it baby with your love even, bang bang,
Baby, do it again.

So shoot me with your bullet, bullet, bullet,
Such a pretty bullet, bullet, bullet,
Go ahead and pull it, pull it, pull it,
Shoot me with your bullet, bullet, bullet.
So shoot me with your bullet, bullet, bullet,
Such a pretty bullet, bullet, bullet,
Go ahead and pull it, pull it, pull it,
Shoot me with your bullet, bullet, bullet.
