Everybody it's about that time
To get a little crazy it's ok to lose your mind
Ain't no moment like the one right now
So we gonna live it up, live it up right now
And I know I'm not the only one that's gonna party
Like a party, party animal, everybody party, let's go

Yo, I like to p-p-party, I like to rock a place
And when the club is jumping, I go to outer space
I like the funky beats, I love the funky pace
I stand up to the speaker, and blast it in my face
I like to p-p-party, I like to party hard
And one that â€¦ crazy, I need a bodyguard
These â€¦ want my party, they all up on my part

They step up to my table, trying to drink â€¦
This party's popping, this partyâ€¦
This party's rocking, everybody is a star
We hurt it till it's down like disco hard
Everyone party like an animal

Everybody it's about that time
To get a little crazy it's ok to lose your mind
Ain't no moment like the one right now
So we gonna live it up, live it up right now
And I know I'm not the only one that's gonna party
Like a party, party animal, everybody party, let's go
Every day I'm shuffling.
