[Intro: will.i.am (Dante)]

You're sumthin' special baby (you're sumthin' special)

You're my special lady (you're very special)

You're so incredible baby (you're so incredible)

You're sumthin' special

[Dante Santiago]

Your eyes, your vibe, they hypnotize me

From the second I saw you girl, I couldn't deny it

How you talk, your walk, your style is gracious

Havin dreams of takin you off to some tropical places

Exotic, erotic, just filled with passion

In bed is the only time that we would be clashin

You're honest, loyal, a heaven-sent blessing

Not tryna run you drag, I just had to confess it

Your scent, your lips, I love when you smile

I want to be chillin witchu for more than a while

For days, months, years, and lifetime

You're so incredible, it's so special you're mine

Your mind, body, and soul is addictive

I can't complain cause you're the type I'd LOVE to have  
kids with

How you move and dance, when you're feelin the  
groove

And when we dim the lights you do that thing that you  
do

[Pre-Chorus: Niu]

You're the type of girl that I just wanna be down

And baby girl I'm lettin you know I'm feelin' yo' style

And if you feel the same way, then tell me now

And girl don't waste no time so we can do it, do it

[Chorus: will.i.am]

You're sumthin' special baby

You're my special lady

You're so incredible baby

You're sumthin' special

You're sumthin' special baby

You're my special lady

You're so incredible baby  
You're sumthin' special

[Dante Santiago]

You're one in a million, you and I should be building  
our sand castles of love to the stars above  
And fill it up with our children, spend eternity chillin'  
On deserted island, slow tunes and violins  
I wanna show you just how anxious I've been  
To tell the whole world, to HELL with my friends  
It's me and you girl, until the whole world ends  
I'ma stand by you as you stand by your man  
Cause when we together, I'm feelin' nothin' but pleasure  
Most of these couples now don't have what we treasure  
You're my earth, my moon, the wind, and the sky  
The apple of my eye, you're my natural high  
Your hair, your hips, your creamy-ass thighs  
I pray to God that you don't end up passin' me by  
Are you down, with me even through the hard times?  
Let's make this happen girl, you're a one of a kind

[Pre-Chorus]

[Chorus]

[Taboo]

Looka here, baby girl, you are my world  
When I see you walk by, my head'll surely swirl  
Over to the right side, who made that eye connection?  
Satisfying thought when nastiness upon my section  
Checkin' out my eyes just to see if I'm a (real man)  
No need for you to worry, I'ma give you sexual  
(healing)  
You need some understanding, I need some  
understanding  
Together as a team if we are locos puffin' [?]  
Style and finesse 'em, boots match your dressing  
You are made for me, there's no doubt, no question  
Damn it feels good to see baby up on it  
It's a special love and I gave you what you wanted like..

[Pre-Chorus]

[Chorus]
