Sometimes I wish that I could be the person that you
are

Just for a minute

Long enough that I can break your heart

Can you even comprehend

Did you even understand a single word that I said

I wonder why you do the things that boy you do to me

I can't imagine why you treated me so horribly

Are you listenin' to me

Are you trying to ignore me

Do I stutter when I speak

What you gonna do baby what you gonna say

I'm cutting you loose cause I've got no time for you

Who you gonna run to

Who you gonna blame

It's a matter of fact

I wont look back

I don't want you

I don't need you

So Let me tell you where it's at

Im through with you

Did ya you understand that

I don't want you

I don't love you

Hit the road jack

Im through with you

Did you understand that

Sometimes I wish that you could be the person that I
am

So you can feel inside exactly what im feeling (yeah)

Maybe then you'd understand

How to treat a lady, and to be real man

You can't imagine what I think of when I think of you

I see a sucker not the person that I though I knew

Will you ever comprehend

Maybe you can keep it going but I can't pretend

What you gonna do baby what you gonna say

I'm cutting you loose cause I've got no time for you
Who you gonna run to
Who you gonna blame
It's a matter of fact
I wont look back

I don't want you
I don't need you
So Let me tell you where it's at
Im through with you
Can you understand that
I don't want you
I don't love you
Hit the road jack
Im through with you
Did you understand that

I used to be (I used to be)
The only girl that you lived for (that you lived for)
You didn't need nothing more (You
didn't need nothing more)
Jaded eyes (Jaded eyes)
So I'm confused when I'm around you
(when I'm around you)
What is this girl to do

What you gonna do baby what you gonna say
I'm cutting you loose cause I've got no time for you
Who you gonna run to
Who you gonna blame
It's a matter of fact
I wont look back

I don't want you
I don't need you
So Let me tell you where it's at
Im through with you
Did you understand that
I don't want you
I don't love you
Hit the road jack
Im through with you
Did you understand that [repeat 2x]
