[Britney Spears] "(Love Is) State Of Grace"  
(Steve Anderson/Lisa Greene/Steve Lee)

Love is a state of grace, transcending time and space  
No other way I can describe  
Insanely beautiful, it's almost mystical 'cause you're  
mine  
And I can't believe that I feel what I feel, such a strange  
kind of real  
Love is a state of grace between you and I.

Golden, broken, I didn't know one touch could open  
body and soul  
And we've just begun, like the moon and sun, we fade  
to one.

Love is a state of grace, transcending time and space  
No other way I can describe  
Insanely beautiful, it's almost mystical 'cause you're  
mine  
And I can't believe that I feel what I feel, such a strange  
kind of real  
Love is a state of grace between you and I.

And the way that we feel is a dream that we know is  
real.  
Love is a state of grace, love is a state of grace.

Love is a state of grace, transcending time and space  
No other way I can describe  
Insanely beautiful, it's almost mystical 'cause you're  
mine.  
'Cause you're mine, love is a state of grace.
