I love the silence I'm in  
I think I dreamed this before  
Some lives seem so incomplete  
Some just keep comin' back for more

Where did the time go?  
Where did the time go?  
Where did the time go?

I can't remember how it end  
Don't even know who I am  
A fadin' memory, a fadin' image redrawn  
Can't wait for ever more

Where did the time go?  
Where did the time go?  
Where did the time go?

Rememberin' things I never said  
I've seen the faces before  
I hope the future isn't dead  
The dead keep askin' for more

Where did the time go?  
Where did the time go?  
Where did the time go?
