Three, two, one, roll five

You got something to say
You better jump in my face
Got something to hide
You're scared as shit and should die

You say it's time to collect
I'll kick your ass and eject
Time to settle the score
Throw your ass through the door

You wanna lie like a dog
You're gonna wake up with fleas
Inside a world full of shit
You're still an asshole to me
