red hand takes a purple terror
love knows these nuts
when we escape from the madhouse
we will... hunt down

tonight we murder

between the battle of pain and hate
we will wait, but not for our time
we'll for hate and to take
to deep... throat
tonight
tonight we murder

between the pain, the battle of pain
love never ties knots
a twisted plan of fear and hate
we'll never untie these nuts

tonight we murder

I murder
tonight we murder
