The time is right for decision
The time is right for those with something to say
This is the world I envision
The type of world where people aren't afraid

What in the world have we done
What in the world...

The time is right for revision
The time is right for revolution today
This is a world in sedition
This is a world that hasn't found its way

What in the world have we done
What in the world...
What in the world have we done
What in the world...
No time to fight for permission
No time is right for those who hesitate
This is a world in attrition
The world we live in is the world we make

What in the world have we done
What in the world...
What in the world have we done
What in the world...
