You know what you are, no  
You know what you are, no

Don't try to reason  
No words, no words  
I've seen it all before  
Don't cry because it is too late

We make some people  
That's all they need to get home  
Now look into my eyes  
I've seen the light

You know what you are, no

The star starts in the west  
We have until we cry  
Last time we offer  
It's going to slaughter out

His covered eyes  
Like in a really happy ending  
Don't look into my eyes  
You're gonna die

You know what you are, no  
You know what you are, no

You know what you are, no

Please don't kill me now  
In a house of guilty hate  
We go around in circles  
Retaliate

Ignore the pain  
Ignore the terror  
We saw the tears  
Lost in their eyes

You know what you are, no  
You know what you are, no
