"29 Ways"

Visit "[29 Ways](#)" on MotoLyrics.com

I got 29 ways to make it to my baby's door
I got 29 ways to make it to my baby's door
And if she needs me bad
I can find about two or three more

I got one through the basement
Two down the hall
And when the going gets tough
I got a hole in the wall

CHORUS:

I can come through the chimney like Santa Claus
Go through the window and that ain't all
A lot of good ways I don't want you to know
I even got a hole in the bedroom floor

CHORUS

I got a way through the closet behind her clothes
A way through the attic that no one knows
A master key that fits every lock
A hidden door behind the grandfather clock

CHORUS
