"Always Now"

It's always now, and nothing ever goes away
Everything is here to stay
And it's always now

It's always now, but never was a used to be
Everything is still with me
And it's always now

So brace your heart, save yourself some sanity
It's more than just a memory
And it's always now

And here's your part, sing it like a melody
There's really only you and me
And it's always now

So brace your heart, save yourself some sanity
It's more than just a memory
And it's always now

And here's your part, sing it like a melody
There's really only you and me
And it's always now

There's really only you and me
And it's always now
