The music stopped  
The crowd is thinning now  
One phase of night  
Has reached an ending now  
And nothin'  
Nothin' lasts forever  
Except forever  
And you my love  
And so will you my love... my love  
The street is dark here  
While I walk along  
And since you've gone  
I always walk alone  
Cause nothin'  
Nothin' lasts forever  
Except forever  
And you my love  
And so will you my love... my love  
And so will you my love  
Your memory's always near  
Wherever I am found  
Your memory's still around  
The dawn and I  
Arrive at home at last  
Night turns it's lonely face  
Toward the past  
Cause nothin' lasts forever  
Except forever  
And you my love  
And so will you my love... my love
