Dreams Come True
(with Norah Jones)

I just thought, that you would like to know
That I would, do anything, just to make your dreams,
just to make your dreams come true

Well I just thought, that you would like to know, that I... I
would climb the highest tree
Just to make your dreams, just to make your dreams,
come true

I know, that it seems like, I am full of hot air
But my heart is in the right place
I swear, I swear

I just thought that you, would like to know, that I... I
would do anything
Just to make your dreams, just to make your dreams
come true

Now I know that it seems like, I'm full of hot air
But my heart
My heart is in the right place
I swear, I swear

And I just thought that you, would like to know
That I... I'd do anything... anything, just to make your
dreams

Just to make your dreams come true

Just to make your dreams, just to make your dreams...

...

Come true
