If the sun's too hot cool it if you can  
Better go out and get yourself a five cent fan  
And fan it, fan it, you gotta fan it and cool it  
Honey till the cows come home

Just met myself a new girl and her name was Sue  
She said, "To make love to you, honey tell you what to  
do"  
You gotta fan it, fan it, you gotta fan it and cool it  
Honey till the cows come home

My mamma's in the kitchen, I just heard that back door  
slam  
Come out of that kitchen honey, quit scorching that  
ham  
And let's just fan it, fan it, you gotta fan it and cool it  
Honey till the cows come home

Well, I got six months in jail, my back turned to the wall  
Fannin' that thing was the cause of it all  
So fan it, fan it, gotta fan it and cool it  
Honey till the cows come home
