"I Can't Find The Time"

I've searched through each moment of each passing
hour,

But your memory grows stronger, I find.

Oh, they tell me, in time, I'll forget you,

But somehow, I can't find the time.

They tell me, in time, I'll find another,

An' happiness, again, will be mine.

Oh, they tell me, in time, I'll forget you,

But somehow, I can't find the time.

Somethin' each moment reminds me of you:

You always end up on my mind.

Oh, they tell me, in time, I'll forget you,

But somehow, I can't find the time.

Instrumental break.

Somethin' each moment reminds me of you:

You always end up on my mind.

Oh, they tell me, in time, I'll forget you,

But somehow, I can't find the time.
