The sun is filled with ice and gives no warmth at all
And the skies were never blue
The stars are raindrops searching for a place to fall
And I never cared for you

I know you won't believe these things I tell you
I know you won't believe
Your heart has been forewarned all men will lie to you
And your mind cannot conceive

Now all depends on what I say to you
And on your doubting me
So I've prepared these statements far from true
They feel I disbelieve

The sun is filled with ice and gives no warmth at all
And the sky was never blue
The stars are raindrops searching for a place to fall
And I never cared for you

The sun is filled with ice and gives no warmth at all
The sky was never blue
The stars are raindrops searching for a place to fall
And I never cared for you
I never cared for you
I never cared for you
