In a way I'm glad it's over
Even though it's gonna hurt me once you're gone
But I can learn to live without you
Give me time and I can make it on my own

Loving you to me came easy
And losing you will change my life no doubt
In a way I'm glad it's over
But another way it turns me inside out

In a way I guess it's better
Even though there's nothing good about goodbye
But I know I couldn't hold you
Now you found your wings and you need room to fly

It's for sure I'm gonna miss you
But I guess that's what goodbye is all about
In a way I'm glad it's over
But another way it turns me inside out

On the one hand I know I'll be better off once you're
gone
But I find a lot of heartaches on the other
And I can't say that I look forward to those nights I'll be
alone
And I wonder if there'll ever be another

Loving you to me came easy
Now losing you will change my life no doubt
In a way I'm glad it's over
But another way it turns me inside out

In a way I'm glad it's over
In another way it turns me inside out
