I gambled on your love baby and got a losing hand  
I gambled on your love baby, yes it got a losing hand  
Your ways keep changing like the shifting desert sand

While I was playing fair baby you played a cheating  
game  
While I was playing fair baby you played a cheating  
game  
I know you didn't care but I love you just the same

I thought I'd be your king baby, and i thought you would  
be my queen  
I thought I'd be your king baby, and i thought you would  
be my queen  
But you used me for your joker 'cause I thought you're  
deal was clean

The way you did me baby, I'll never understand  
The way you did me baby, I could never understand  
I gambled on your love baby, I got a losing hand
