Give me talkin' now you tried to make her happy you
couldn't make her happy
Make way for a better man than you
You tried your brand of lovin' she couldn't stand your
lovin'
Make way for a better man than you
I held back cause you and I were friends
But old buddy this is where our friendship ends
I'm takin' over now those signals she keeps sendin'
means your romance is endin'
Make way for a better man than you
[guitar - steel]
Those fancy words you told her were not enough to
hold her
Make way for a better man than you

I guess you're in your lockout you came to back and
struck out
Make way for a better man than you
I held back cause you and I...
Make way for a better man than you
