

Willie Nelson

"Man with the Blues"

Visit "[Man with the Blues](#)" on MotoLyrics.com

If you need some advise in being lonely
If you need a little help in feeling blue
If you need some advise on how to cry all night
Come to me I'm the man with the blues

I'm the man with a hundred thousand heartaches
And I've got most any color of the blues
So if you need a little shove in fouling up in love
Come to me I'm the man with the blues

If you need some advise in being lonely
If you need a little help in feeling blue
If you need some advise on how to cry all night
Come to me I'm the man with the blues

I'm the man with a hundred thousand teardrops
And I've got a good selection, old and new
So if you need a little shove in fouling up in love
Come to me I'm the man with the blues
Come to me I'm the man with the blues
