My window faces the south  
I'm almost halfway to heaven  
Snow is falling but still I can't see  
Fields of cotton calling to me

My window faces the south  
And though I am far from the Swanee  
I'm never frownin' or down in the mouth  
My window faces the south

My window faces the south  
I'm almost halfway to heaven  
Snow is falling but still I can't see  
Fields of cotton calling to me

My window faces the south  
And though I am far from the Swanee  
I'm never frownin' or down in the mouth  
My window faces the south  
My window faces the south
