If you can truthfully say that you've been true just one  
day  
Well that makes one in a row, one in a row, one in a row  
And if you can look into my eyes, one time without  
telling lies  
Well that makes one in a row, one in a row, one in a row

Why do I keep loving you after all the things you do?  
Just one time come into my arms and be glad that  
you're in my arms  
That will make one in a row, one in a row, one in a row

Why do I keep loving you after all the things you do?  
Just one time come into my arms and be glad that  
you're in my arms  
That will make one in a row, one in a row, one in a row

One in a row, one in a row  
One in a row, one in a row
