### **"Part Where I Cry"**

Visit "[Part Where I Cry](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Life is a picture and I play the lead  
But my biggest line was goodbye  
Now my leading lady has walked out on me  
And this is the part where I cried

I was great in the scene where she found someone new  
You should have seen my look of surprise  
And if you'll have just walk into the picture  
This is the part where I cry

And after the picture is over  
And it's judged for the part where she lied  
The award of the achievement that's given  
Will be mine for the part where I cried

I was great in the scene where she found someone new  
You should have seen my look of surprise  
And if you'll have just walk into the picture  
This is the part where I cry
