Turn out the lights the party's over they say that all  
good things must end  
Let's call it a night the party's over and tomorrow starts  
the same old thing again

What a crazy crazy party never seen so many people  
Laughin' dancin' look at you you're havin' fun  
But look at me I'm almost cryin' but that don't keep your  
love from dyin'  
Misery cause for me the party's over

Turn out the lights...

Once I had a love undyin' I didn't keep it, wasn't tryin'  
Life for me was just one party and then another  
Broke her heart so many times had to have my party  
wine  
But one night she said sweetheart the party's over

Turn out the lights...

[ guitar ]
