Pretend I never happened
Erase me from your mind
You will not want to remember
Any love as cold as mine

I'll be leaving in the morning
For a place I hope I find
All the places must be better
Than the ones I leave behind

I don't suppose you'll be unhappy
You'll find ways to spend your time
But if you ever think about me
And if I ever cross your mind

Just pretend I never happened
Erase me from your mind
You will not want to remember
Any love as cold as mine

I don't suppose you'll be unhappy
You'll find ways to spend your time
But if you ever think about me
And if I ever cross your mind

Just pretend I never happened
Erase me from your mind
You will not want to remember
Any love as cold as mine
You will not want to remember
Any love as cold as mine
