Some other world has all the sunshine
'Cause there's no sunshine in mine
Out of the darkness came thunder and rain
Leavin' my dreams all in vain

Some other world there sleeps my darlin'
There, where the skies are always blue
Why don't they take me out of this world
And let me find my sunshine with you?

Some other world there sleeps my darlin'
There, where the skies are always blue
Why don't they take me out of this world
And let me find my sunshine with you?
