Willie Nelson
"Teach Me To Forget"

You taught me how to love
With all my heart
With all my soul
I trusted you
And now you say
We'll have to live apart
A thing I don't know
How to do
You said someday
I'd find somebody new
And I'll have
Not one regret
But stay a while
If what you say is true
Stay and teach me to forget
[piano]
You taught me how
To worship you alone
And now you say
You'll have to go
And people call me
On the telephone
Just to say I told you so
I know now that I
Only learned to live
On the night
When first we met
God above will teach me
To forgive
But stay
And teach me to forget
Please stay
And teach me to forget
