"Will You Remember Mine"

Visit "[Will You Remember Mine](#)" on MotoLyrics.com

Sweet is the song when the song is love
Love that has stood the test of time
And when you've heard all the songs of love
Will you remember mine?

Gone are the times when I held you close
And pressed your lips to mine
Now when you kissed another's lips
Will you remember mine?

I have sat 'neath the trees
While the cool summer breeze
Blew away the sands of time
And thought of days when you were near
Remembering when you were mine

Gone are the times that I walked with you
And held your hand in mine
Now when you hold another's hand
Will you remember mine?

Now when you hold another's hand
Will you remember mine?
