I
it was unexpected
when you came into my life
and when i saw you baby
i know that it is you

II
because of you i met true love
i've never felt this way before
you're the only one in my heart
i know that its you.....

CHORUS
i know its you
the one one that i've been looking for
the one whose willing to give me hope
happiness and carress in my life
i know its you
the one that i've been dreaming of
the one whose not too good to be true
in my life you are the perfect one
i know its you my love

III
before you came in my world
it was so empty
and now your here by my side
please dont go away

REPEAT II

REPEAT CHORUS 2x
