My sunshine's gone  
You were the sun in my sky and the tear in my eye  
But your sunshine only last for a while  
Then my blue skies turned grey when you went on your  
way  
In the dark I'm so all alone my sunshine's gone

My sunshine's gone and it's all been in vain  
It's like chasing after rainbows in the rain  
When I stumble and fall your sweet love I recall  
Now I'm lost don't know right from wrong my  
sunshine's gone  
Now I'm lost I'm so all alone my sunshine's gone
