When you're not around I get lonely though you always  
laugh at such things  
When you're not around I am only a puppet with no one  
to pull the string  
I can't help but worry about you you're all the happiness  
I found  
I love you so my heart goes where you go and I'm  
lonely when you're not around

When you're not around I get lonely and the hours pass  
more slowly than years  
When you're not around you can't see me  
And I'm glad cause then you can't see my tears  
I'm so afraid of the shadows afraid of every sound  
I love you so my heart goes where you go and I'm  
lonely when you're not around  
Oh I love you so my heart goes where you go and I'm  
lonely when you're not around
