I wake up in the garden  
A wind across my hair  
The bloom of Jasmine and the  
Night sky satin  
Softly she is there  
The trail of light she leaves  
Like sand in an hourglass  
I listen to her voice at last

I am your past  
Goddess' revival  
I'll be your path  
One of her disciples  
Please take my task  
Goddess' revival...

It was dark and so quiet  
Venus led Psyche to the rosey dawn  
She's only beginning to fight like she's winning  
Through seasons, years, and eras, she carries on  
I walk the way she walks  
Leaving trails of golden light  
I listen to her voice tonight

I am your past  
Goddess' revival  
I'll be your friend  
One of her disciples  
Please take my hand  
Goddess' revival...

Now I can see the light  
You've got to learn from me  
You've got a lot to learn  
Goddess...

I am your past  
Goddess' revival  
I'll be your friend  
One of her disciples  
Please take my hand  
Goddess' revival...

I am goddess' revival  
One of her disciples  
Take me to the land  
I'll show you what I am
