Black hearted
Adversary demon of sodomy
Grant me your sweat of your winged body
My desire to fuck you is oh so arousing
As I make thee young angels watch in lust
Oh whore of the night I shall take your
Soul in fiery vein my venomous cock penetrates
Tampereed places many have gone my worthless
darling

Hope to see you when I return back my love
Beside my throne sits a whore
Submissive cunt cum to me and explore
Your forbidden desires (let the blood orgy begin)
As the stiffed demons dance around the priest
Of a dark distant (the dark distant air!)
Ridden coven witches stir their disease ridden
cauldron black
Sickening secretion fills the galloweed
Hallways of immortal suffering cunt worshipping slut
One of the chosen few come forth and strip your skin
Show me your true form cloven hooves of power (run)
Shall rule the world

Adversary
