A Reverse of Progress  
To step back in regression  
An ambush of feelings  
A losing Battle of tears  
Let's tear down this facade,  
Let's turn away this dark past  
Redirect the madness  
The time for change has begun

Bringing a knife to a gunfight  
Your song is playing, so lets see you dance

These words can be separated  
You can't escape the song  
You have not come to fight this  
I want to know, where's your gun now?

Plague me once again with your lies.
