Don't stop do it again/and this time give it some feeling  
If its just pretend/then go on with believin'  
I can leave behind/I can't sleep at night  
It won't let me crash till dawn

Fall apart/as the/day begins  
It's so hard to stop/to start over and over again  
But you can't quit/as you give in

Oh you're falling flat on your face/begin with  
something better  
Leave without a trace/and contemplate a letter  
Dear my oldest friends/we will meet again  
When the sunlight leaves the sky

Fall apart/as the/day begins  
It's so hard to stop/to start over and over again  
But you can't quit/as you give in
