You know why I'm here/so don't keep me waiting in line
Whisper in my ear/telling me that you're all mine
I believe her
Because I need her love/so badly/that I could die

Now/we can be alone
Both of us have/watched the sun go down

Straight through the ground
Straight through the earth..

And I'll remember/when everything was pure as snow

It's like a tomb/for fifty eyes
Lay to rest in a field/beneath the open sky
I believe her
Because I need her drug/so badly/that I could die

Now/we can be alone
Both of us have/watched the sun go down

And never come back around
And never come back around

(It's like a tomb for fifty eyes/beneath the open/open
sky
I wanna live I don't wanna die/beneath the open/open
sky)
