Uhh oh  
When I first saw you,  
I just stood still.  
Though I've been knowing you

For two or three years,  
But more than you  
Can't you see  
I wanna be everything you need.  
Cause you're the one  
Right when is up the day.  
Can't wait to see the smile on my face  
When you call  
I pick up right the way.  
But when you wanna go on another day  
Got to tell you I love you  
And I need you  
I really do  
If I had you, you will never hurt again.  
Oh oh oh

Now I hope I'm not  
Coming on too strong,  
Cause I know you got  
A lot going on.  
Don't get weird,  
When you hear the song  
Just come on, just come on.  
I know you asked if I'm here for fun,  
Wanna be the only one  
I wanna lift you to another place,  
Let me give it to you baby,

Give it to you baby.  
Got to tell you I love you  
And I need you  
I really do  
If I had you, you will never hurt again.  
Got to tell you I love you  
And I need you.  
I really do

If I had you, you will never hurt again.  
Oh oh oh.

If I had you baby  
never hurt again  
If I had you baby  
Love you till the end.

Got to tell you I love you  
And I need you.  
If I had you, you will never hurt again.  
Got to tell you I love you, yeah  
And I need you, ooh  
If I had you, you will never hurt again.  
No no oh oh.  
Never never hurt again.  
Never never hurt again.  
Never never hurt again.  
Never never hurt again.  
Never never hurt again.  
Never never hurt again.  
Oh oh oh yeah.
