Keri Lewis, Stokley Williams, Jeff Allen)

Verse 1:

You don't have an income  
And you can't find the means  
The world's just made you worry  
You try to be happy  
Afraid to heal your inward  
And bills just later on  
It's a world of contradiction  
Try to be real strong

Chorus:

Out of time, out of mind  
Drivin' me crazy  
Out of time, out of mind  
The world is shady and hazy  
Out of time, out of mind  
It's drivin' me crazy  
Out of time, out of mind  
The world is shady and hazy

Verse 2

With you, just for today  
Tomorrow's not guaranteed  
So make it count for something  
We'll join it and feel  
Sometimes it feels so good  
And that's how it should be  
Everybody's not crazy  
Lazy (oh yeah)

(Chorus 2x)

Bridge:

(We're living in a world of speed)  
We're living in a world of speed  
(We're living in a world of greed)  
Selfishness is part of the system

Chorus 2x

Bridge 2x

Adlib to end
