the queen of come here go away you are...

You take me high in the sky
but never touch the stars.
Up and up you take me then you stop
Hot and cold your mood sure change alot. (alot, alot)

Are you real or are you fakin?
up and up then off you shake me
dont understand it
i really hate it

Girl
Can you ever tell me where your heart goes (Where do
you go?)
When this is us and suddenly you stop the flow.

is it turkey, sausage, or real bacon
are you real or are you fakin?
dont understand it
i really hate it

girl
say are you real or are you fakin
up and up then off you shake me
dont understand it
i really hate it

girl
the queen of come here go away you are (X 5)
